**" ROAR FOR
REVOLUTION "**

Note: Competitors must adhere to the spirit of healthy competition. Decisions of judges will be final. However, in case of dissatisfaction with reference to any problem related to events, the students can apply in writing to ombudsmen committee. The decision of the committee will be agreeable to all.

PHARMA INNOVEREN

This event is for a really genius student who is not only able to find out a problem existing in the healthcare/pharma industry but also is able to find a sensible solution for it through innovative idea using the present day available technology.

Objectives:

This event is meant to provide platform to students to showcase their novel ideas related to Pharmaceutical and healthcare science.

Rules:

- Innovation should be in the form of new drugs, vaccines, formulations, healthcare services, Pharmasoftware, medical devices, surgical, and Pharmaceutical packaging.
- Team will be of maximum four students.
- Mode of presentation can be as per the suitability of the subject.
- Maximum ten minutes for presentation followed by two minutes of questions and answers.

PHARMA QUIZ

Pharma Quiz provides platform to assess cognitive potential of the students .

Objectives:

It is a mind sport, in which the student teams attempt to answer questions correctly. It is a game to test general as well as pharma knowledge.

Rules:

Total 4 rounds

Round 1-

Based on General knowledge questions. One question to each team. Each question will be displayed for 40 seconds.

Round 2-

Dumb charades: based on machines and apparatus used in laboratories. One minute will be given to each team.

Round 3-

Spell bee: Any One member will have to read the given words and the other team members will have to tell the correct spellings orally. 3 words will be given per team.

Round 4- Rapid fire round (pharmacy plus general knowledge questions). Very short questions. 10 questions per team in one minute. If the number of entries for this event exceeds five, elimination round will be conducted using rapid fire round only. The first five teams will be selected for finals.

CASE STUDY

This event is evaluating clinical pharmacy knowledge and analytical skill of the student. A clinical case will be provided to the student. Using the literature he/she has to provide answers to the questions pertaining to diagnosis and therapy.

Objectives:

- This competition will help students to understand and practice Clinical pharmacy.
- It will help for critical evaluation of clinical cases.

Rules:

- Team consists of maximum two participants.
- Maximum one team per institute is allowed.
- A clinical case will be provided to the students one hour before the actual event. During this one hour students can access internet as well as standard books for analyzing the case. The team will have to present their analysis through power point in maximum ten minutes.

PHARMAFILM

Pharmafilm is creative and effective way to present the current scenario of Pharma and healthcare sector.

Objective:

Students will be creating a short film/video pertaining to pharma and healthcare. The film should be sensitizing the viewers to at least one present day problem in the pharma and healthcare sector.

Rules:

- Students can chose any theme for film which sensitize the viewers to atleast one present day problem in the pharma and healthcare sector.
- Participating team can be of maximum four students.
- Short film can includes text, images, photos, videos or any combination of these elements.
- Video duration must be a minimum of two minutes and maximum of five minutes and format should ideally be AVI, FLV or MP4.
- Film should be clear and of good resolution.
- Plagiarism in any form is not allowed.
- Winners would be judged on clarity of subject, relevance and creativity.
- The video must not benefit any company, organization, political party or official interest group by the use, for instance, of logos, brands or representatives or corporation.
- The video must not contain any nudity, lewd or otherwise offensive or inappropriate content.

IPSA

Industrial Problem Solving Ability (IPSA) is a platform for evaluating mental ability of students for finding solutions for given problem related to the industry.

Objectives: Student will have to face a challenge of finding the best solution for a Pharma industry based problem. The problem will be posed by an industry associated personnel. The entire competition may be based on theoretical or practical concept.

Rules:

- Team consists of two participants.
- Problem will be given 48 hrs before the actual event.
- Utilization of internet and any other means of resources will be allowed.
- The team will have to present their analysis through power point in maximum ten minutes.
